Requirements Engineering

2019/2020
Course 10

Course 10 outline

- ❖ Final Exam Discussions
- ❖ Final Mark

Final Mark

❖ **Written Exam: 60%**

A. For a given set of requirements you have to:

    ❖ Analyze them using two or three characteristics from course 1. (2p)

    ❖ Rewrite some of them using the Gherkin language (given, when, then). (2p)

    ❖ Prioritize them using two given techniques. (3p)

B. Explain in your own words a concept from requirements engineering. (2p)

Final Mark

- **Project: 40%**
  - Project evaluation: 30% E, 50% RS, 20% DI
  - 3 points penalty for each missed deadline
  - You cannot hand-in the project in the normal session
  - In the re-examination session the project mark is at most 5

- **Both marks (written-exam and project) must be at least 5**
